

KIRANMAYI TUMMALA

Portfolio - <https://kiranmayi1609.github.io/my-portfolio/>

Analytical and technically oriented professional with a Bachelor's degree in Computer Science, A Master's degree in Business Management and Vocational education in Data Communication with Specialization in Programming. Experienced in data analysis, business reporting, forecasting, software development and problem investigation.

Strong ability to understand problems, analyze data, gather information, identify user and business needs and translate findings into practical solutions. Hands-on technical experience with SQL, C#, .NET, REST APIs, Python, Pyspark and SQL Server. Interested in Business Analysis because it combines my business understanding, technical knowledge, analytical thinking, and communication skills.
